

USE OF COOKIES

In order to improve the browsing experience of online visitors, www.vtneurope.com uses cookies: they are small files, typically composed of letters and numbers, that the website transmits to the device that the user is using. Thanks to cookies, websites are thus able to recognize users' devices and, consequently, to remember them. However, cookies are not able to read the user's personal data on the electronic device, but are limited to unlocking the device's memory, allowing the website to recognize it and offer it more efficient navigation.

The user is free at any time during their browsing to change the management of their cookies through simple changes related to the settings that each browser makes available, however this operation may prevent the user from using some parts of the site.

Cookies can be used to improve user navigation. For example:

- allowing the user to efficiently navigate from one page of the site to another;
- allowing you to avoid entering the same information, such as user name and password, repeatedly during the same session;
- measuring the use of services by users, in order to optimize the browsing experience and the services themselves.

There are various types of cookies. Below are the types that can be used in this site with a brief description of the purpose related to the use.

Technical cookies

Cookies of this type are necessary for the proper functioning of some areas of the site. In the absence of such cookies, the site or some parts of it may not work properly. Therefore they are always used. Cookies in this category are always sent from our domain.

Analytical cookies

Cookies of this type are used to collect information on the use of the site. This information is used for statistical analysis, to improve the site and simplify its use, as well as to monitor its correct functioning. This type of cookie collects anonymous information on the activity of users on the site and the way in which they arrived at the site and the pages visited. Cookies in this category are sent from the site itself or from third-party domains.

Third-party services analysis cookies

These cookies are used to collect information on the use of the site by users in an anonymous form, such as: pages visited, time spent, sources of originating traffic and other potentially useful information for marketing purposes. These cookies are sent from third-party domains external to the site.

Cookies to integrate products and functions of third-party software

This type of cookie integrates features developed by third parties within the pages of the site such as icons and any preferences expressed in social networks in order to share the contents of the site or for the use of third-party software services (such as software to generate maps). These cookies are sent from third-party domains and from partner sites that offer their functionality between the pages of the site.
